

State of New Hampshire Health Assessment Tool (HAT) Worksheet (January 1, 2012)

It all starts here... *better health - health assessment tool* creates a comprehensive summary of your health and lays out the steps to improve it. We'll start with a health assessment questionnaire, so here is a worksheet that will help you when completing it. You may want to ask your health care provider's assistance in providing you with the following health biometrics, screening tests and immunizations that may be recommended for you. Although you can complete the questionnaire without providing all the health information, by utilizing your current health information, you will receive a more comprehensive health summary for your own reference and health improvement goals.

Biometrics	Current Value and/or Date Completed
Weight (pounds)	
Height (inches)	
Body Mass Index (BMI)	
Waist Measurement (inches)	
Blood Pressure	
Total Cholesterol	
LDL	
HDL	
Triglycerides	
Fasting Blood Sugar	

Screenings	Current Value and/or Date Received
Physical Exam	
Dental Exam	
Vision Exam

Hepatitis B (series of 3 shots)	
Pneumonia	
Tetanus (within the last 10 years)	
Influenza (flu) (within the last 12 months)	
Shingles vaccine (if age 60 or older) or Chickenpox (have you had it or the vaccine?)	
If female age 26 and under ONLY: HPV (Human Papillomavirus)	

You have until 12/31/2012 to complete or print your 2012 Anthem health assessment tool, please go to www.Anthem.com and login (if you have not been to the new Anthem website, you will need to re-register. Have your Anthem ID number available.). Don't forget to collect/and or share the results of your health assessment tool with your health care provider at your next appointment. To view what preventive health guidelines are recommended for all age groups and gender, visit anthem.com and click on the purple health and wellness tab.

Note: Your privacy in taking this assessment is something we take very seriously and is protected by law. Please see our privacy policy located on the website for details on how we protect you.
