Vehicles
and/or equipment that do not meet the above criterion shall be immediately taken out of service until the problem(s) are corrected. No exceptions are allowed.

4. SCOPE OF WORK

Contractor shall remove all snow from entrance roadways, parking lots, and other areas of the facilities as listed and specified herein. Contractor shall furnish all equipment, vehicles, labor, and supervision to perform the work specified herein.

Areas requiring snow plowing are to be properly staked prior to the start of each snow season. This is to be completed by the Contractor. The State of New Hampshire will reject any claim that the area was damaged before snow plowing commenced if the claim was not made before the first storm.

Snow is to be removed or sanded/salted as soon as accumulation reaches a depth indicated for each location, every time it snows, and plow continuously for the duration of the storm so as not to allow large accumulations of snow, so that in the event emergency vehicles need to gain access to

This shall be completed within forty-eight (48) hours after the cessation of the storm.

For locations that require walkway and sidewalk snow removal the Contractor shall keep walkways and sidewalks safe and passable at all times. The clearing of walkways and sidewalks shall not be done with equipment larger than the width of the walk or sidewalk. Snow is to be removed or sanded/salted as soon as accumulation reaches a depth indicated for each location, every time it snows, and plow continuously for the duration of the storm so as not to allow large accumulations of snow, so that in the event emergency vehicles need to gain access to
any part of the location, they will be able to do so. All areas requiring snow removal shall be completed by the times indicated for that location.

The Contractor shall maintain locations with the goal of obtaining bare and dry pavement. Bare pavement should occur as soon as practical after a winter storm terminates.

In the event that plowing operations (by the Contractor, city, town, or state) creates snow banks that impair the vision of vehicles and pedestrians entering and exiting the location, these banks shall be removed to ensure that safe entering and exiting can occur. All equipment used in the performance of services shall be fitted with rubber tires. No metal chains shall be on the equipment.

A foreign substance is defined as any of the following: motor vehicle fluids (oil, gas, diesel, grease); plow fluids (fluids, grease); tobacco (no form of tobacco shall be in use in the vehicles while at the facility); and vehicle refuse (trash in vehicle that may escape into the plowing area). Vehicles
and/or equipment that do not meet the above criterion shall be immediately taken out of service until the problem(s) are corrected. No exceptions are allowed.
