The Agency may waive this requirement in situations where long-term services are required or where it is deemed appropriate.
8. Labor costs, with the exception of preparing site Incident Reports, shall apply to on-site time only. Portal-to-Portal and site to site time shall not be paid.
9. Item II-M-1, Site Mobilization and Demobilization, covers the cost to the Vendor for mobilizing equipment and personnel to the site of a significant spill, remediation, or project site and

subsequently demobilizing the equipment and personnel upon completion of the assignment. One payment shall be made for each site the Vendor is called to, regardless of the number of visits required to complete the task. Mobilization fees shall not be applied to assignments addressing small spills (less than 25 gallons), roadside pick-ups, and/or tasks that can be completed utilizing only light equipment (i.e. duty vans/trucks). Payment shall normally be made upon demobilizing from the site. However, where the Vendor's equipment and personnel will be required on-site for a period exceeding one month, half of the bid amount shall be paid for mobilization and the remaining half shall be paid upon demobilizing from the site.

10. The Vendor in providing costs for the disposal of the wastes, Items II-D-1 through II-D-7C shall include with each bid item a designation for the method of disposal of the material. The Vendor shall use one of the following letters to identify the method of disposal:

- d. L- land filling

In the event a waste item is not covered in the Bid, the price for disposal, recycling, or treatment, shall be negotiated with the generating Agency, and so noted on the invoice rendered by the Vendor.

11. The State realizes that the most preferred method of disposal, recycling, may not be appropriate or possible for certain wastes. The Vendor's designation shall be the most preferred method of disposal available for the waste based on current industry standards. Consistent use by the Vendor of a disposal method of a lower preference than that commonly used may be grounds for rejection of the Bid, to be in compliance with State Government Waste Reduction, Recycling and Recycled Products Waste (RSA 9-C).

12. All labor prices Items II-L-1 through II-L-9 are based on Level D, personal protective equipment. Items II-P-1 through II-P-3 shall be the additional cost of providing Level A, Level B or Level C PPE to each worker donning PPE as directed by the Site Safety Officer, (29 CFR 1910.120, Append B).

13. Payment for laboratory analyses shall include all labor, materials, and equipment necessary to perform the laboratory analysis and report the results. The cost of performing special analyses not listed in the Bid or the NH Petroleum Reimbursement Fund Program unit and project base cost sheet shall be provided at a cost to be agreed upon by the Vendor and the Agency requesting the services. All laboratory analysis prices shall be based upon a two-week turn-around, unless the requesting agency requests an alternative turnaround time and associated costs.

14. If the project lasts for more than one (1) day and is over 80 miles from the Vendor's N.H. base of operations, per diem charges for employees on the project shall be allowed. Per diem rates shall be reimbursed for the expense of meals and lodging. Per diem rates shall not exceed the current prevailing rates for the State established by federal travel regulations. Receipts shall be originals and submitted with the request for compensation in order to verify the expense.

15. Costs for the disposal, recycling, treatment, land-filling and transportation of materials contaminated with hazardous wastes shall be accepted or rejected based on comparison with the Part II Contract bid prices and quoted prices by the Part III Contractor.

16. Prices for the disposal, recycling, treatment, and transportation of waste materials shall include all applicable state and federal fees and taxes.

17. Cost of preparing the HASP shall be included in and incidental to Item II-M-1, Mobilization and Demobilization, contained in the Bid when applicable.
18. Heavy Equipment that is on-site but not being used on a daily basis may be considered as standby equipment and payment for the Bid item shall be reduced to a standby rate. The standby rate for all equipment shall be 50% of the rate stated in the bid. Where it is agreed by the Agency that a piece of equipment is essential on site to mitigate a potential threat to on-site personnel, public health, or the environment, this reduction in the charge rate may not be applied.
19. Equipment used on-site for any part of the payment period shall be paid for the full amount of that period, i.e., equipment with a daily lease rate shall be paid the full rate regardless the length of time the equipment is used on-site within the payment period. Measurement for payment for equipment with half day rates shall extend from midnight to noon and from noon to midnight. Payment for equipment during on site time cross-over periods must be onsite for at least four hours and does not include travel time.
20. Cost for Equipment and/or items not included in this proposal shall use the NH Petroleum Reimbursement Fund Program unit and project base cost sheet. Payment for materials used without a Bid Item or NH Petroleum Reimbursements Fund Program shall be actual cost plus 10 percent. See Attachment A,

 - a. Bid Price x 1.5 – Work hours in excess of 8 hours on any weekday or Saturday
 - b. Bid Price x 2.0 – Work hours on Sundays and State recognized holidays.
23. The Contaminated Material Disposal bid items are for the cost to transport the wastes from the site or incident to the disposal facility and for the disposal, treatment, recycling, and /or land-filling of the wastes. There shall not be separate transport costs from the site or incident to a processing facility which in-turn packages the wastes for final disposal at another facility to be charged at the transport /disposal bid prices and will be billed at the equipment rate.

K. CHANGE ORDERS

1. The State shall use written Change Orders for Non-Emergency Work to authorize additional Work not originally requested under the approved Scope of Work or to authorize additional quantities and items for handling and disposition under the given Assignment. In some cases, the Change Order mechanism may be used by the State to consolidate and transport and/or dispose of contained wastes from more than one site for economic advantages. The amount of compensation to be paid to the Vendor for any extra work shall be agreed upon between the parties and stipulated in the Change Order.
2. The Vendor shall complete a Change Order form provided by the State for changes to time, materials, transportation or disposal costs, for any time or schedule change, and/or for use of subcontractors. The State must pre-approve the Work and dates under a Change Order, for the Vendor to be compensated.

The Contractor shall replace in satisfactory condition all defective work and damages rendered thereby or any other damages incurred. Upon failure of the Contractor to proceed promptly with the necessary corrections, the State may withhold any amount necessary to correct all defective work or damages from payments to the Contractor.

The Contracting Officer may require the Contractor to dismiss from the work such employees as deems incompetent, careless, insubordinate, or otherwise objectionable, or whose continued employment on the work is deemed to be contrary to the public interest or inconsistent with the best interest of security and the State.

All personnel shall observe all regulations or special restrictions in effect at the State Agency.

The Contractor's personnel shall be allowed only in areas where services are being performed. The use of State telephones is prohibited.

If **sub-contractors** are to be utilized, Contractor shall provide information regarding the proposed sub-contractors including the name of the company, their address, contact person and three references for clients they are currently servicing.
