5. The Subcontractor shall be bound by the same terms and conditions as those that bind the Contractor to the State, but there shall be no direct contractual relationship between a Subcontractor and the State.

The engineer shall provide evaluation and design services prior to the start of the work.
2. In instances where it becomes necessary to excavate next to existing structures, photos shall be taken of the structure prior to commencement of the work. Where appropriate, videotaping of the structural conditions may also be performed to supplement photographs. The completeness of the photographic record may be crucial in any subsequent litigation that may arise.

The Agency may waive this requirement in situations where long-term services are required or where it is deemed appropriate.
8. Labor costs, with the exception of preparing site Incident Reports, shall apply to on-site time only. Portal-to-Portal time shall not be paid for.
9. Item II-M-1, Site Mobilization and Demobilization, covers the cost to the Contractor for mobilizing equipment and personnel to the site of a spill and subsequently demobilizing the equipment and personnel upon completion of the assignment. The Contractor's designation shall be the most preferred method of disposal available for the waste based on current industry standards. Consistent use by the Contractor of a disposal method of a lower preference than that commonly used may be grounds for rejection of the Bid, to be in compliant with State Government Waste Reduction, Recycling and Recycled Products Waste (RSA 9-C).
12. All labor prices Items II-L-1 through II-L-8 are based on Level D, personal protective equipment. Items II-P-1 through II-P-3 shall be the additional cost of providing Level A, Level B or Level C PPE to each worker donning PPE as directed by the Site Safety Officer.
13. Payment for laboratory analyses shall include all labor, materials, and equipment necessary to perform the laboratory analysis and report the results. The cost of performing special analyses not listed in the Bid shall be provided at a cost to be agreed upon by the Contractor and the Agency requesting the services. All laboratory analysis prices shall be based upon a two (2) week turn-around, unless the requesting agency ask for alternative turnaround time and associated costs.
14. If the project lasts for more than one (1) day and is over 80 miles from the Contractor's N.H. base of operations, per diem charges for employees on the project shall be allowed. Per diem rates shall be reimbursed for the expense of meals and lodging. Per diem rates shall not exceed the current prevailing rates for the State established by federal travel regulations. Receipts shall be originals and submitted with the request for compensation in order to verify the expense.
15. Costs for the disposal, recycling, treatment, land-filling and transportation of materials contaminated with hazardous wastes shall be accepted or rejected based on comparison with the Part III Contractor prices and quoted prices by the Part II contractor.
16. Prices for the disposal, recycling, treatment, and transportation of waste materials shall include all applicable state and federal fees and taxes.
17. Cost of preparing the HASP shall be included in and incidental to Item II-M-1, Mobilization and Demobilization, contained in the Bid.
18. Heavy Equipment that is on-site but not being used on a daily basis may be considered as standby equipment and payment for the Bid item shall be reduced to a standby rate. The standby rate for all equipment shall be 50% of the rate stated in the bid. Where it is agreed by the Agency that a piece of equipment is essential on site to mitigate a potential threat to on-

site personnel, public health, or the environment, this reduction in the charge rate may not be applied.

19. Equipment used on-site for any part of the payment period shall be paid for the full amount of that period, i.e., equipment with a daily lease rate shall be paid the full rate regardless the length of time the equipment is used on-site within the payment period. Measurement for payment for equipment with half day rates shall extend from midnight to noon and from noon to midnight. Payment for equipment during on site time cross-over periods must be onsite for at least four (4) hours and does not include travel time.

In some cases, the Change Order mechanism may be used by the State to consolidate and transport and/or dispose of contained wastes from more than one site for economic advantages. The amount of compensation to be paid to the Contractor for any extra work shall be agreed upon between the parties and stipulated in the Change Order.
2. The Contractor shall complete a Change Order form provided by the State for changes to time, materials, transportation or disposal costs, for any time or schedule change, and/or for use of subcontractors.
