3. PRICING QUOTATIONS FOR INDIVIDUAL PROJECTS

ORDERING PROCEDURE

Projects are to be quoted per occurrence to all contractors. Utilizing agency shall issue a detailed Scope of Work (SOW) through a Request for Quote (RFQ) to include all specifications of each individual project. The RFQ will be awarded to the lowest cost response meeting specifications.

4. INVOICE

PAYMENT PROVISIONS

1. The State or Agency agrees to pay the Contractor for services provided in accordance with the prices listed in Exhibit C. No surcharges or additional charges of any kind shall be allowed. In the event a waste item is not covered, the price for disposal, recycling, or treatment shall be negotiated with the generating Agency and so noted on the invoice rendered by the Contractor.
2. The Contractor agrees to submit separate invoices to each Agency serviced. Each invoice shall be written solely for the services rendered by the Contractor to the Agency.
3. The State or Agency serviced under the contract agrees to accept and pay invoices as submitted by the Contractor within 30 days after the successful completion of the Agency pick up and disposal, recycling, or treatment project or after an acceptable invoice has been received by the invoiced State or Agency's business office, whichever is later and subject to the conditions contained in Paragraph 4, below. The successful completion of the Agency pick up and disposal, recycling, or treatment project shall mean that (1) the Contractor has fulfilled the terms and conditions of the contract, and (2) the State or Agency business office has received a copy or photocopies of all Bills of Lading and manifest forms signed by the operator of each wastes facility treatment or recycling location to which the State or Agency's hazardous wastes were delivered for final disposition.
4. Invoices for wastes picked up and disposed of shall provide the following information: Manifest number, the line in the manifest for which the charge applies, the classification of the waste, the unit price, the volume being billed and the total amount for the item. Invoices not in conformance with this format shall be rejected and returned to the Contractor for correction.
5. Payment for pick up and disposal of wastes under this part shall initially be limited to 75% of the contracted price. The remaining 25% shall be billable upon receipt by the Agency of the certification of final disposition of the waste.
6. The Contractor shall provide a history of any waste picked up for treatment, disposal, or recycling from receipt of the waste to final resolution. Failure to do so will result in the payment being held until the document(s) is provided.
7. All drums, unless otherwise specified, shall be understood to be 55-gallon, 30-gallon, 15-gallon, or 5-gallon in capacity.
8. The unit price for the disposal of the wastes shall cover the cost of: profiling of the wastes; labeling and packing list preparation in accordance with DOT and EPA regulations; Manifest and Land Ban form preparation; transportation; and disposal of the wastes either through recycling, treatment, incineration, landfilling or some other approved method of ultimate disposal.

9. Only one pick up charge shall be made for wastes collected at a single address. In instances where a pick up is made on the same day from more than one Agency at the same address, i.e., Health and Human Services building, the pick-up charge shall be shared equally by the number of agencies where wastes were collected.
10. The Contractor shall use one of the following letters to identify the method of disposal: R-recycling; T-treatment; I-incineration; and L-landfilling. The State realizes that the most preferred method of disposal, recycling, might not be appropriate or possible for certain types of wastes. The Contractor's designation shall be the preferred method of disposal available for that waste based on current industry standards. However, consistent use by the Contractor of a disposal method of a lower preference than that commonly used may be grounds for cancellation of the Contract.

PAYMENT REQUEST FORMAT & CONTENT

1. The Contractor shall invoice each Assignment separately. For longer duration projects, multiple invoices may be submitted upon approval by the utilizing Agency. Each invoice shall be submitted in the appropriate electronic format prescribed by the State.
2. Each payment request or invoice shall include the following information:
