4 TYPES OF SERVICE

Full Service: Contractor shall set up a collection service as requested by the requesting agency. Full service is when the Contractor leaves on-site a collection unit(s) and coordinates a pick up schedule with the requesting agency. The Contractor reserves the right not to provide this type of service to the requested location; if it is determined the annual collection poundage would not adequately cover delivery and pick up cost.

Single Use Service: Contractor shall accommodate single collection service request for a requesting agency. Single collection service is when the Contractor provides a collection unit (bin) for a one time use at an agency location. The requesting agency is responsible for loading the collection unit (bin). There is minimum poundage for the different types of metal for this service, see specification section “Minimum poundage” for weights

Will Call Service: Contractor shall arrange for pick-up of will call request, from requesting agencies. Will-calls are when the Contractor will remove and load the recycled materials in to their collection units at the agencies location. There is minimum poundage for the different types of metal for this service, see specification section “Minimum poundage” for weights.

Drop off at Contractor Location: State agencies may deliver scrap metal to the Contractor’s yard and/or Contractors weigh scale when it is in the States best interest and with prior approval from the Contractor. Under these circumstances all documentation, records, and the payment process shall remain the same as Contractor pickup.
CONTAINER / DROP-OFF: DELIVERY/ DROP OFF / PICK UP TIME, COMMUNICATION & FORMAT:

INITIAL CONTAINER DROP OFF COMMUNICATION
Before providing equipment, supplies and / or services, Contractor shall receive proper authorization from the requesting agency in writing. Once authorization is granted, the Contractor provides the requested type of service. Container size to be specified by agency for the collection of scrap metal.

SERVICE ORDERING - COMMUNICATION PROCEDURE -
State agencies will order products or services; request container pickups by e-mail. They may also establish a standard delivery / pick up schedule if required. Political sub-divisions and authorized non-profit organizations will utilize their own individually established ordering procedures.

The Contractor will be required to accomplish delivery/drop off / pick up of any container ordered under this contract within seven (7) working days from the placement of the order by the agency.

The use of a private carrier or subcontractors to make delivery or pick up does not relieve the Contractor from the responsibility of meeting the delivery/ drop off/pick up time frame requirement.

REMIT FOR REBATE PAYMENT PACKAGE

ALL rebate payment packages shall be mailed to:

STATE OF NEW HAMPSHIRE
ADMINISTRATIVE SERVICES
DAS Business Office, Room 418
25 CAPITOL STREET
CONCORD NH 03301

Under no circumstances shall payment for any material picked up or dropped off under this contract be made to any State agency other than the one stated above.

REBATE PAYMENT OR INVOICING:

REBATE PAYMENT PACKAGE SHALL INCLUDE:

- Rebate packages shall be done on the basis of each pick up completed.
- Rebate check. (All payments shall be made by company or bank check, no cash)
- Weigh slips for each commodity weighed (statement of hauling)
