SCOPE OF WORK:
The term “fire suppression system testing and inspection services” as used herein shall include providing all materials, equipment, labor and transportation necessary for the successful completion of the work under the terms and conditions contained herein for the fire suppression system equipment.

The purpose of this Contract is to provide all labor, tools, transportation, materials, equipment and permits as necessary to provide the required level of services as described herein. The scope of work shall include Fire Suppression System Testing and Inspection Services, as per NFPA 13, of the adopted edition and NFPA 25, of the adopted edition.

Prior to any work commencing on fire suppression systems included in this Contract, the Contractor shall contact the agency contact to arrange a site visit. Site visits will not be allowed without prior notification to the agency contact person or designee.

Before proceeding with any testing, the location receiving the fire suppression testing shall be notified of the testing to prevent unnecessary response and shall only be completed during the hours indicated for that location.

Monthly Reporting
The Contractor shall provide monthly reports summarizing the previous month’s maintenance activities (e.g. inspection failures, service calls, repairs) and any deficiency, if applicable. Reports shall also indicate the
installation date of the equipment and the code the equipment was inspected under. Monthly reports shall be submitted electronically to the purchasing agent assigned to the contract and the agency.

**Capitol Plans**
Contractor shall also draft a capitol plan, providing suggested upgrades to the existing system for each location and shall submit to the contract manager within one (1) year of contract initiation.

**Repair Reports**
Upon the completion of each scheduled repair service or emergency repair and prior to leaving the serviced location, the Contractor shall present a written summary of the work performed and obtain the State’s signature thereon.

**Replacement Parts**
The Contractor shall, in performing the services as described herein, have readily available spare parts to support the described systems at the Contractor’s cost throughout the duration of the Contract.

The Contractor shall maintain or have readily available replacement parts that are new and of the same quality and brand name as that which is being replaced. Substitutions shall be permitted only with prior authorization of the agency.

**Service**
The Contractor shall make service available twenty-four (24) hours per day, seven (7) days per week. Normal (regular) system maintenance shall occur between the hours indicated for each location. The Contractor shall be paid for service that is required on weekday evenings after regular hours, weekends, and on State Holidays at the repair rates established in this Contract.

The Contractor shall respond to service calls within one (1) hour for emergency calls and for non-emergency calls. If on-site service is required on an emergency basis Contractor shall arrive on-site anywhere in the state within two (2) hours, except for Coos County. For on-site service for emergency calls in Coos County, Contractor shall arrive on-site within four (4) hours. If on-site service is required for a non-emergency call, Contractor shall arrive on-site anywhere in the State within one (1) business day. The agency placing the service call shall determine whether the situation constitutes an emergency or a non-emergency.

If the Contractor cannot complete emergency repairs or replace the part(s) within twenty-four (24) hours, the Contractor shall contact the agency contact and indicate why the repair or replacing the part(s) cannot be completed and when the equipment shall be returned to normal use.

The Contractor shall present, after each scheduled emergency call and before leaving the job site, a written summary of the work performed and obtain the State’s signature thereon.

**Maintenance and Inspection Requirements**
Quarterly inspections and testing shall occur as required by the applicable NFPA 13 and 25 standards, of the adopted edition, manufacturer recommendations, and state/local codes.

Any defective part(s) shall be repaired and/or replaced at the State’s expense as detailed herein. Requests to repair or replace defective system components shall be approved in advance by the Business Administrator, or his/her designated representative, prior to any actual work being performed by the Contractor.

The Contractor shall perform the required tests listed in NFPA 13 and 25 standards, of the adopted edition, manufacturer recommendations, and state/local codes.
