### **Delivery Locations:**

Approximate delivery coverage location map (see page 3) showing radius per contracted vendor and in compliance with Department of Transportation Specification; refer to Section 520.3.5.3.1.11 Any concrete that is not in place 1 1/2 hours after the cement has been added to the aggregates shall not be used unless otherwise permitted by the Engineer. The Engineer may extend this time limitation if the concrete workability (slump) stills allows for the concrete to be placed without the addition of water to the batch. In hot weather or under conditions contributing to quick loss of workability, a time less than 1 1/2 hours may be required.
