Confidentiality

All information included in this RFI is confidential and only for the recipient knowledge. No information included in this document or in discussions connected to it may be disclosed to any other party.

Introduction and purpose of the RFI

With this RFI we request information regarding your company and your products/services. The same information will be gathered from different companies and will be used to evaluate what suppliers we will follow up with. Purchasing will be made following State of NH bid process.

Scope

Specific information is requested according to the form below.

RFI procedure

To answer this RFI please fill in the attached form.

Contact person listed below is available for assistance in case that is needed.

The answers to this RFI will be evaluated by staff from different functions in NHFST&EMS.

How to deliver the answer

Send the attached form in word-format (format unchanged) by email to john.keller@dos.nh.gov.

Contacts

For questions regarding this RFI, you are welcome to contact:

John Keller

Captain

Timeframe

This is the estimated timeframe for the RFI and an eventual coming project

05/26/2016 – The RFI is sent out

06/16/2016 – Last date for questions

07/07/2016 - Last day to submit responses and/or schedule a demonstration

08/04/2016 – Last day of demonstration

09/01/2016 – Specifications sent to purchasing for bid request

Background description of what is requested

Of the context in which the product or service will be used

State of New Hampshire, Division of Fire Standards & Training and Emergency Medical Services (NHFST&EMS) is seeking information and demonstrations of LP fired live training props. These props shall include an automobile with independent engine and passenger compartment operation, dumpster, 500 gallon propane with independent impingement and relief valve operation, underground propane tank, and pipeline.

Statement of need

These props will be utilized in a fixed or portable area and used with various fire streams including hand line and master stream appliances. They shall be operable in all weather conditions to be encountered in the north east United States. They shall also be able to operate with both pressurized liquid LPG and vapor LPG.

Qualifications

Supplier shall be a known vendor of LPG fired props and provide onsite service.
