SEPTIC PUMPING BID # 16-101 ADDENDUM

Flume Gorge location – Vendors are required to have a small enough truck that will fit through the Flume Bridge. The bridge is 11 feet 6 inches tall and can hold a total of 15 tons.

Springfield Welcome Information Center location – The secondary tank is pumped twice a year: May and October. The specification spreadsheet looks like this tank is only pumped once in October for 8,000 gallons due to it being “grayed out”. Vendors bidding on this location need to put a bid for 8,000 gallons for May on row 198 under column “P”.
