QUESTION:

Should it be assumed that Rhythm will be furnishing a quantity of 14 of the Rhythm video detection cameras (and housings) that will be installed by NHDOT? Or is the intent to have all of the vehicle detection performed by the Aldis SmartGrid cameras?"

ANSWER:

The system must be able to count vehicle turning movements at each intersection and have the ability to view the traffic using a camera. The system will need to supply the 14 video detection cameras.
