DATE OF BID CLOSING: 9/5/2019  

TIME OF BID CLOSING: 10:00 AM (EST)

FOR: K-1 Kerosene, Supply & Deliver

NOTICE:
Delivery Location, Requirements and Specifications, Item 7 presently reads:

7) Delivery of the total amount of kerosene required shall be comprised of three (4) tractor trailers delivering 5,000 gallons each for a total of 20,000+/ gallons to one or more of the five (5) 20,000 gallon ABOVE GROUND storage tanks. Be advised the fuel will need to be pumped off and not gravity dropped.

Amend to read:

7) Delivery of the total amount of kerosene required shall be comprised of up to four (4) tractor trailers delivering 5,000 gallons each for a total of 20,000+/ gallons to one or more of the five (5) 20,000 gallon ABOVE GROUND storage tanks. Be advised the fuel will need to be pumped off and not gravity dropped.

Weight limit on required delivery road for a three (3) axle tractor and two (2) axle trailer is 60,000 pounds.

CLARIFICATION:

Question 1: If a vendor has trucks capable of holding 10,000 gallons of fuel, can these deliveries be done in two (2) trips rather than four (4)?

State's Response: The weight limit on the Auto Road for a three axle tractor and two axle trailer is 60,000 pounds. Awarded vendor may haul as much fuel as they want as long as the gross weight does not exceed 60,000 pounds.

Question 2: Is the PO going to be issued for 20,000 gallons and then the vendor will top off the 5 tanks or will each tank look at their levels and want each tank filled to 90% capacity so there is a potential to have 2 full tractor loads and then one truck with about 2,000 gallons in it?

State's Response: The 20,000 gallons will be divided between two of our tanks this year.
PURCHASING AGENT: Ryan Aubert
