ADDENDUM # 1 TO BID INVITATION # 222 -16

DATE OF BID OPENING: 5/17/16

TIME OF BID CLOSING: 1:30 PM (EST)

FOR: Audio Visual System – Supply & Install

Clarification:

Q1: In the training room for instance it appears but does not state in the bid that the room will be divided can you verify that?

A1: The training room is designed to function as one large classroom and also allow us to divide the space into two separate rooms, thus giving us the ability to run two classes simultaneously.

Q2: What will be the functionality of the Command Center (How will it be used?)

A2: The Command Center will be used primarily as a conference room.

Q3: Lastly usually when there is equipment specified in a bid there is usually a flow diagram outlining how the equipment will integrate again assuring the both of us that this list of equipment will meet your desired need.

Q4: Without an AV flow then this would entail a design engineer's time to verify that the equipment listed will function properly.

Q5: Do you have architectural drawings of each space ?

Q6: Do you have audio visual system flow drawings of each space ?

A: 3-6: The agency does have architectural drawings of the spaces although for security purposes, would like to meet with vendors at their temporary facility in Laconia, NH to review/discuss the floor plan. They would be happy to meet with anyone to explain the layout. The agency does not have audio visual system flow drawings of each space although they do have electrical drawings and architectural plans to show the layout of the proposed rooms. To visit the site see page 7 of the RFB:

SITE VISITATION:

Prior to bidding, it is each Vendor's responsibility to become thoroughly familiar with the site of the intended installation, to determine everything necessary to accomplish the installation. Call Sgt. Crystal McLain at (603)227-2113 to make an appointment to view the site of the intended installation. Failure of the Vendor to make a site visit does not relieve the Vendor of responsibility to fully understand what is necessary to accomplish a successful and complete installation.
