CONTRACT NO.: 8001215

COMMODITY: Geographic Information Systems Software, Training, and Services

VENDOR: Environmental Systems Research Institute, Inc.

EXPLANATION

This second amendment will extend the contract for a period of one (1) year, from August 1, 2016 through July 31, 2017. This statewide contract allows agencies the ability to purchase the Department of Information Technology (DoIT) approved geographical information systems software. The existing Contract with ESRI contains the terms to allow extensions, the term of the Master Purchasing Agreement (MPA) described in Article 2 Term of Agreement states the term may be extended upon mutual written agreement. I have attached the amendment from ESRI to extend the term for one (1) year. One alternative is to sign onto the NASPO ValuePoint Master Agreement, which has the same pricing, but terms and conditions very slightly.

This Amendment 2 is entered into by and between Environmental Systems Research Institute, Inc. ("Esri") and the State of New Hampshire ("State").

WHEREAS, Esri and State entered into a Master Purchase Agreement 2011MPA0205 with an effective date of June 28, 2012 (the "Agreement"); and

WHEREAS, the parties desire to extend the Agreement for one (1) year and update certain terms and attachments;

NOW THEREFORE, the parties agree to the following:

- 1) **Article 2 – Term of Agreement.** The term of the Agreement is hereby extended for one (1) year commencing on August 1, 2016 ("Commencement Date").
- 2) **Esri MPA Price List.** The existing MPA Price List is hereby deleted in its entirety and replaced with the attached MPA Price List (E418SHM 2Q2016).
- 3) **Time and Materials Rate Schedule.** The existing 2015 Time and Materials Rate Schedule, J8410 2015 is hereby removed in its entirety and replaced with the attached 2016 Time and Materials Rate Schedule, J8410 2016 for State of New Hampshire.

Except as may be specifically modified by this Amendment 2, all other terms and conditions of the Agreement and any Amendment(s) or Addendum(s) constitute the entire agreement between the parties and supersede all prior and contemporaneous agreements or representations, written or oral, concerning the subject matter of the Agreement.

The parties hereto have executed this Amendment 2 to be effective, valid, and binding upon the parties as of the Commencement Date.

TIME AND MATERIALS RATE SCHEDULE

Effective January 1, 2016

Hourly time and materials labor rates have been provided for each labor category for calendar year 2016. The hourly labor rates for services that are performed after 2016 may be escalated in an amount not to exceed five percent (5%) each year. Other direct costs, such as travel, reproduction, subcontractor, telecommunication/freight, or materials, will be charged a material handling fee and invoiced.

Esri reserves the right to provide fixed price quotations for professional services requests that require deliverables other than hours. Work performed under fixed price orders will require additional terms and conditions and will be invoiced monthly based on percentage completed.

GIS Technical Specialist/Engineer (S1)

Hourly Rate: \$212

Staff members in this labor category work collaboratively with software designers to perform software coding and the writing of software documentation according to design specifications developed by senior technical staff described below. As a group, these staff members are experienced in the coding of software and the creation of digital databases, as well as in software development associated with Esri's commercial off-the-shelf (COTS) software products; web, desktop, or server software development languages; geospatial data formats; and other technologies. These individuals also develop effective database designs, implement data conversion processes and procedures, and perform software and database quality control.

GIS System/Software Developer (S2)

Hourly Rate: \$274

Staff members in this labor category support the design of technical project specifications for the implementation of application software projects and database development projects. They support the day-to-day technical activities of the project team and ensure that standard system methodologies are employed. They also perform detailed software design and detailed database conversion design and are directly involved in the coding and implementation of complex and strategic portions of application software and database conversion projects. As a group, these staff members are proficient in Esri COTS software products; web, desktop, and server software development languages; geospatial data formats; and other technologies. These staff members design and develop QA/QC programs and support design and code reviews, database reviews, and other QA/QC activities throughout the project life cycle.

Senior GIS System/Software Architect (S3)

Hourly Rate: \$336

Staff members in this labor category provide the overall technical vision and system architecture for large, complex systems. They support the application of sound software engineering principles and life cycle methodologies to programs/projects. These individuals are actively involved in systems architecture design, application software design, database process design, and the directing of coding development including the supervision of design and code reviews. These staff members may serve as principal investigators in focused studies or research and development projects. Individuals in this labor category have broad technical knowledge of geographic information system (GIS) applications and related information technologies and may also provide specific expertise in areas such as web-based software applications, service-oriented architectures, data warehousing, spatial analysis, and modeling. As a group, these staff members are proficient in Esri COTS software products; software and database design methodologies; web, desktop, and server software development languages; geospatial data formats; and other technologies.

GIS Consultant/Project Manager (M1)**Hourly Rate: \$257**

Staff members in this labor category provide day-to-day consulting and management for contracted projects within Esri. These individuals work under the guidance of senior Esri managers described herein and support the design and implementation of project work plans. These staff members may provide consulting services and design and management support to software application development projects and database conversion projects. They may also conduct detailed requirements interviews, document application requirements, develop logical and physical database designs using standard engineering diagramming methodologies, design software and database QA/QC programs, and provide management oversight of daily technical activities. These staff members work with senior consulting and technical staff to design comprehensive work plans that employ standard system methodologies that define project deliverables, milestones, and realistic schedules. These individuals work with Esri administrative staff to ensure that progress and financial reporting is provided according to contract requirements.

Senior GIS Consultant/Project Manager (M2)**Hourly Rate: \$324**

Staff members in this labor category work as project managers or project advisers, providing strategic consulting and project management activities for GIS and information technology (IT) projects. These staff members have market/application domain expertise using extensive experience in GIS and related geospatial technologies to support the successful completion of a project. Consulting activities may include strategic planning, GIS workshops and seminars development, requirements definition, application and database design, and system integration. Management activities may include defining project requirements and objectives, establishing budgets and schedules, allocating staff and other resources, and managing and overseeing subcontractor activities. These individuals may also design comprehensive work plans that employ standard system methodologies that define project deliverables and milestones and realistic schedules.

Principal GIS Consultant/Program Manager (M3)**Hourly Rate: \$427**

Staff members in this labor category work as program directors or project advisers, providing project vision, strategic consulting, and program management activities for GIS and IT projects. These staff members apply market/application domain expertise using extensive experience in GIS and related geospatial technologies to support the successful completion of the program. Consulting activities may include strategic planning, review and oversight of requirements definitions, application and database design, and system integration. Management activities may include defining program requirements and objectives, establishing budgets and schedules, allocating staff and other resources, and managing and overseeing subcontractor activities. Staff members in this labor category work with senior client staff in coordination with Esri senior management to resolve issues and support successful project completion.

GIS Database Specialist/Analyst (DB)**Hourly Rate: \$179**

Staff members in this labor category provide database development support in creating cartographic and digital data products. These staff members have expertise that includes the performance of hard copy to digital data conversion tasks, data migration, and translation activities utilizing advanced processing techniques in ArcGIS. These individuals design, develop, and implement efficient production tools and workflows in accordance with approved project plans and design parameters.

Concord, NH 03301

Dear Assistant Commissioner Bouchard:

This letter represents formal notification that the Department of Information Technology (DoIT) has approved your agency's request to enter into a contract amendment for Geographic Information Systems Software with Environmental Systems Research Institute, Inc. (ESRI), as described below and referenced as DoIT No. 2017-005.

This is the statewide Geographic information mapping software contract #8001215 with ESRI that enables numerous State agencies to utilize digital mapping data to support decision-making. The current contract expires July 31, 2016. The amendment will extend the contract for a period of one (1) year from August 1, 2016 through July 31, 2017.

A copy of this letter should accompany the Department of Administrative Services' contract documentation throughout the approval process.

Sincerely,

Denis Goulet
Commissioner
