Terms: Net 30

Invoice:

INVOICING AND REPORTING REQUIREMENTS

Invoices and reports are required throughout the duration of any resulting contract as denoted below.

Monthly Reports

The Contractor shall provide a Monthly Summary Report forwarded to Department of Administrative Services, Bureau of Plant and Property detailing service. Included shall be all cellular telephone numbers subscribed to the State, billing program used, monthly cost, usage cost, date of the last usage, equipment provided, telephone "owner", State agency responsible for billing and contact person.

Invoicing Services

Invoicing Services shall consist of the costing of all Contractor provided services. Contractor shall detail all charges and provide extended definitions of itemized charges. Bulked charges shall be rejected by the State. A separate invoice shall be available for each telephone subscribed to each State office. The State may require that multiple telephones be billed on a single account. In such cases, the Contractor shall place charges on a single master bill.

Invoices shall be submitted on a monthly basis, inclusive of the first bill cycle day of the month to the last bill cycle day of the month in which the services have been performed. Charges will be pro-rated by the numbers of days in service when partial month services occur.

Invoice Details

All monthly reports and invoices shall be itemized including details for every Contractor billable item, inclusive of basic monthly charges, minutes of use, excess minutes of use, call detail inclusive of city/town location and telephone number called. All call records must be listed in sequential order by date of call.

Invoice Corrections

The Contractor shall provide within twenty (20) working days, any corrective data requested by the State. This shall include replacement reports, corrective information on balances and credits and any other change of service information required for bill back to agencies by the State.

Invoice and Report Delivery Timeframe

Invoices and Reports shall be delivered on or prior to twenty-five (25) days subsequent to the monthly bill cycle. The State shall not be held liable for service performed without the receipt of properly filed invoices, reports and supporting information. Invoices shall be forwarded directly to State users, and may be forwarded as a group to same addresses when directed by the State.

Account Balances

The Contractor shall maintain all records of payments, credits and balances.

Accuracy of Invoices

Contractor shall be responsible to justify all charges to the State. Invoices must be reviewed for accuracy prior to delivery to the State. All billing information provided to the State must reflect same information. Paper invoices and electronic reports must reflect same call detail, record count, call and service cost. Conflicts between support data and paper billing shall be considered incomplete billing and payment held until proper support information provided by the Contractor.

Paper

Invoices must be provided on paper. It is preferable that invoices also be available electronically, delivered by e-mail or downloadable from an Internet web site.

Electronic Media

Monthly reports shall be provided in electronic PC format with all files provided as Open Data Base Compliant (ODBC) ASCII flat files. All such reports shall be e-mailed to designated contract administrator, or alternate addresses when provided by the State.

Itemized invoices shall be submitted after the completion of job/services and shall include: a brief description of the service plan along with the associated cellular phone number, to the individual agency.

Contractor shall be paid within thirty (30) days after receipt of properly documented. The invoice shall be sent to the address of the using agency under agreement.

Scope of Service:

COVERAGE MAPS

Traditional Cellular Telephone Service for voice operational coverage shall be a minimum of 80% of all geographic areas of New Hampshire.

ISP Access Data Service for "Smart" phones and wireless "Air Card" coverage for a minimum of 50% of all geographic areas of New Hampshire.

PORTING OF EXISTING TELEPHONE NUMBERS

Contractor shall port all lines by start of business on March 16, 2013, or upon commencement of the contract, whichever is later.

TYPE(S) OF SERVICE

Traditional Cellular Telephone Service, Domestic Use

Traditional cellular telephone services shall allow users to directly dial any telephone number which is available through the Public Branch Exchanges as available from Local Exchange Carriers, Competitive Local Exchange Carriers, Long Distance Carriers and competitive Cellular Telephone Service providers. Access to any telephone subscriber number shall not be restricted. Services shall include typical "off the shelf" features and telephone operation. Equipment provided for use with this service shall be referred to as Traditional Cellular Telephone (TCT) equipment. One free voice device shall be offered for each user one time per line. Otherwise devices shall be eligible for upgrade at prices included in the Exhibit B.

Access Data Services

Contractor shall provide data transport at multiple speeds, limited by the use of Contractor technology. Common terminology is second generation (2G), third generation (3G) and fourth generation (4G) service. In addition to SMART phones, a primary use of the service is for Internet access and data transfer through tunneling using "Wireless Air Cards". Contractor shall provide all necessary items including ISP operations, access and equipment when directed by the State. Contractor shall not restrict site address access.

Equipment provided for use with this service shall be referred to as stationary or mobile data equipment. One

free "Wireless Air Card" device or SMART phone depending on request shall be offered for each user one time per line. Otherwise devices shall be eligible for upgrade at prices included in Exhibit B, available under Balance of Product Line. One free device shall be provided to the Department of Information Technology (DoIT), Director of Technical Support, for a ninety (90) day evaluation and use approval prior to distribution to users. The Contractor shall not offer devices that have not been preapproved by DoIT. Devices supplied to DoIT for preapproval shall be returned to the Contractor after evaluation. Rejected devices shall be replaced with DoIT approved devices.

Smart Phone Services

A Smart phone is defined as a mobile phone with advanced capabilities including PC-like functionality with access to text messaging, e-mail and web browsing. Phones must be capable of accessing Microsoft Exchange Server and Lotus Notes e-mail and include Personal Digital Assistant (PDA) capabilities including calendaring. Access shall be provided throughout the Contractor footprint of the continental United States. Equipment functionality must include the ability to open MS Excel, MS Word and Adobe Acrobat files. Currently systems running iOS and RIM are the only accepted operating systems accepted by the State, though this may change and the Contractor needs to be flexible with this evolving technology. Equipment provided for use with this Contract shall be referred to as Smart Phone (SM) equipment. One free "Smart Phone" device for each operating system specified shall be offered for each user one time per line. Otherwise devices shall be eligible for upgrade at prices included in the Exhibit B.

One free "Smart Phone" sample device shall be provided to the Department of Information Technology (DoIT), Director of Technical Support for a 90 day evaluation and use approval prior to distribution to users. Devices supplied to DoIT for preapproval shall be returned to the Contractor after evaluation. Rejected devices shall be replaced with DoIT approved devices.

Contractor shall provide State of NH employees access to the State of NH Mobile Device Management solution at no additional cost or change in plan for State issued smart phones.

Agencies may procure services and devices under balance of product line, with prior written approval by the Dept. of Information Technology and Dept. of Administrative Services – Bureau of Purchase and Property, to meet their business requirements.

LICENSES

The Contractor shall currently hold and retain throughout the duration of the Contract all licenses or certificates required by the State and Federal authorities inclusive of the Federal Communications Commission and State of New Hampshire Public Utilities Commission (PUC). The Contractor must file with the appropriate regulatory body, any tariff, amendments, or special contract offerings to ensure that the required terms and conditions of this Contract are met. The Contractor shall cooperate fully with the PUC to ensure that all time schedules noted within are met.

In the event of loss of license or permit to provide services as defined, the Contract shall be nullified; with the State free to engage in an agreement with any Contractor as becomes necessary to continue services without retribution to the original Contractor.

INTRODUCTION OF SERVICES

The Contractor must insure that services do not operate in conflict with alternate service providers. Contractor must provide all user cellular equipment inclusive of telephones, data modems and associated devices, and deploy prior to March 16, 2013, or upon commencement of the contract, whichever is later, in order to insure that the State is not without service for any period of time during transfer of service from an incumbent contractor. Additional equipment shall be provided when requested to support new subscribers after start of contract. Only services requested and authorized by the State shall be replaced. The Contractor shall communicate with Agency contacts and State users for coordination with the distribution of equipment.

RETENTION OF EXISTING TELEPHONE NUMBERS

The State shall retain any existing cellular telephone number currently assigned to a State subscriber. Contractor shall be responsible to port over numbers to the proposed service as requested by the user. The porting of numbers shall not delay service installation nor result in a user being without service.

ORDERING PROCEDURE

Telephoned Requests

State agencies may call the Contractor at any time between 8:00 A.M. and 4:30 P.M., Monday through Friday,

to request services. The Contractor shall respond and provide appropriate service as requested, and allowed under the Contract, with the exception of Smart phones. Smart phones shall require prior written approval from the State Department of Information Technology CIO, or their designated approver. No tablets may be purchased through this Contract.

Contractor Signature Documents

Any signature forms used by the Contractor to reflect service requests or delivery of service to the State shall refer to the contract number. All other terms and conditions shall be null and void.

Purchase Orders

The State may mail or fax Purchase Orders as requests for service. Contractors shall accept State Purchase Orders whenever used.

Initial Service Requests

Upon request the Contractor shall contact State agencies to perform a service needs analysis as directed by the State. The Contractor shall meet with each requesting agency to determine the count and type of telephones, service program and delivery of replacement services. The needs analysis shall be completed prior to deployment. Upon request a complete deployment plan including agency, end user, telephone number, equipment supplied, cost and cost plan shall be provided to the Department of Administrative, Bureau of Purchase and Property.

Political sub-divisions and authorized non-profit organizations shall utilize their own individually established ordering procedures.

Addition and Removal of Users

Telephone subscriptions may be added or removed from service at any time during the Contract, with a maximum requirement of a thirty (30)-day or one calendar month activation period with no termination liability. All service agreements shall be coterminous with the termination date of this Contract. All provided equipment (telephone, charger, belt-clip, etc.) shall be returned to the Contractor within thirty (30) days of request of line removal.

Returns

Return Authorization credits shall be provided without penalty for faulty equipment. Contractor shall be responsible for all shipping charges for equipment returned. Defective telephones, accessories and associated equipment shall be replaced within three (3) State business days of report of failure. Such service shall be available to State users by placing a single telephone call to the Contractor.

USER TRAINING

The Contractor shall train each user on the operation of the individual telephone, service access and features upon delivery of equipment. Complete training shall be available at each individual State office. Continued support shall be provided to train new users and provide refresher training for others when requested by the State.

USER DOCUMENTATION

The Contractor shall provide access to user instruction manuals and associated documentation with each telephone provided. Manuals shall include detailed operation of all telephones, accessories and system operations.

CUSTOMER SUPPORT SERVICES

The Contractor shall provide complete customer support inclusive of the following:

Account Management

The Contractor shall provide a single point of contact for the State or its representative. Contractor must work in conjunction with any State contractor regarding the interface of any and all Contractor or State provided and supported communications equipment.

Account Team Access

Contractor shall provide telephone, facsimile, and Internet e-mail access to each individual on the Contractor's account team. General toll free numbers shall be provided for telephone and facsimile services on a statewide basis.

Billing Support

The Contractor shall assign a dedicated financial representative to the State account that will cooperate with the State to resolve billing, call detail, equipment programming, data discrepancies and all other aspects of the Contract. The Contractor shall be capable of receiving electronic payments from the State.

If Contractor subcontracts any or all of the products and/or services covered by this Contract, the Contractors shall be the central point of contact for all matters of ordering, billing, invoicing, and delivery. Use of a subcontractor does not release the Contractor of any responsibility. Bills and invoices for products and services must be issued by and payable to the Contractor. Questions related to billing or delivery of service and/or equipment will be handled promptly by the Contractor and not the Contractor's subcontractor(s).

Problem Resolution

The Contract shall have a single contact person, available from 8:00 A.M. to 4:30 P.M. during State workdays for the resolution of problems. The contact person must be authorized to provide invoice corrections, initiate repair and equipment replacement processes, and expedite services.

The State shall designate a Contract Administrator who will work with the Contractor to resolve problems that cannot be resolved by the agency end-users.

TECHNOLOGY

Updates to Existing devices/services

The influx and transition of new technology may result in the disconnection or discontinuation of a defined service and connection to new technology. The Contractor shall not impose any charges for a given service when the State discontinues one service for the replacement of another while remaining a customer of Contractor. Contractor shall replace any interface equipment which becomes obsolete due to Contractor service updates.

All users shall be notified thirty (30) business days prior to system operation changes, inclusive of equipment updates and software/firmware updates.

In the normal course of technology evolution and enhancement, Contractor continually updates and upgrades its networks, Products and Services. In some instances, these efforts will result in the need to ultimately replace or sunset certain offerings or technologies. In such event, Contractor will undertake such efforts in a customer-focused and commercially reasonable manner. Accordingly, Contractor reserves the right, in its sole discretion, after providing the State with a sixty (60) day notice to discontinue any Product, Service, Business Plan, device or handset without either party being in breach of the Contract or incurring early termination liability relating to the discontinuance of the affected Product, Service, Business Plan, device or handset. If Contractor takes any such action, it will provide advance notice reasonably designed to inform the State of such pending action. The form of Contractor's notice may include without limitation, providing written notice to any address listed in the Contract for Customer or any address Contractor uses for billing or as set forth in an Order. Customer agrees that such notice is reasonable and sufficient notice of Contractor's pending action.

Introduction of New Technology

Contractor shall provide notification to the State prior to technology updates requiring end user equipment replacement or modifications in methods of calling. Whenever such changes are made, the State may request sample equipment to verify that services operate within the parameters of the contract.

The presentation of any new service not current in any resulting contract shall require the issuance of a contract amendment after the service is accepted by the State.

CONFIDENTIAL INFORMATION

The Contractor agrees that all discussions or information gained during any engagement shall be considered confidential and that no information gathered by the Contractor shall be released without prior written consent of the State.

REPAIR AND INSTALLATION SERVICES

The Contractor shall make service available 24 hours per day, seven (7) days per week. The Contractor shall be responsible to implement appropriate maintenance to ensure continued operation of all services throughout the duration of the Contract.

Toll Free Telephone Number

A toll free telephone number shall be provided for trouble reporting and immediate service assistance. Personnel must be knowledgeable of the contract services and devices as configured for the State.

Escalation to Second Level Support

Escalation to second level support shall be provided for trouble reports not addressed and corrected within a twenty-four (24) hour time period.

Subcontractor Performance

The Contractor shall be responsible for the performance of any subcontractors that are used.

TELEPHONES AND EQUIPMENT

Contractor shall provide a single end user device for each service end user, inclusive of Traditional Cellular Telephones, Smart Phones, and Data services. The Contractor shall also offer equipment for purchase at the discretion of the State. The Contractor must provide cellular service for compatible equipment that is currently owned by the State. Services for all equipment shall include equipment programming, repair, installation and instructional assistance. All user equipment shall be retained as property of the State once delivered to end-users. Equipment may be substituted at any time after equipment review and acceptance by the state.

Accessories

All telephones provided by the Contractor shall be complete and ready to use with the following attachments:

- 120 Vac battery charger/adaptor
- 12 Vdc battery adaptor/charger
- Belt clip holster or belt clip carrying case
- Earpiece (ear-bud)
- Screen protectors for Smart Phones

Hand Held Portable Telephones

Traditional Cellular Telephones shall be new or like new sets. Telephones shall allow use of each service feature proposed by the Contractor and incorporate hands free talk-back, corded earpiece, graphic display, internal call directory and other common phone features. A base phone shall be provided at no charge, with optional feature phones proposed for purchase.

Push-To-Talk Telephones

Cellular Telephones with half duplex speed-dial communications over the cellular network shall allow use of each service feature proposed by the Contractor and incorporate hands free talk-back, corded earpiece, graphic display, internal call directory and other common phone features. A base phone shall be provided at no charge, with optional feature phones proposed for purchase.

In Vehicle Telephones

Contractor shall provide Auto Adaptor/Conversion kits allowing telephones to be installed in State vehicles. Contractor shall provide access to all labor to install and relocate such equipment as directed by the State. Equipment shall include the following features:

- Hands free talk-back operation
- 12 Vdc vehicle power
- Multiple vehicle installed antenna styles including magnet, glass and permanent mount antennas.

ISP Access Data Equipment

Contractor shall provide Internet access equipment inclusive of Sierra Wireless Aircards, Novatel Wireless Ovation or equipment with same performance and similar features, designed for use with laptop, mobile or stationary data equipment. Contractor must provide a full physical, operating and technical description of each device offered.

Contractor shall provide a full range of "smart" cell phones for which they are authorized for, iOS and RIM operating systems are currently the only State accepted operating systems.

Existing Equipment

Equipment currently owned by the State, when compatible, shall be serviced by the Contractor. Services shall include equipment programming, repair as available from the Contractor, removal and installation of equipment in State vehicles, and operational instructional assistance.

Equipment Maintenance and Warranty

The Contractor shall have at their disposal installation and support technicians to provide support services for all equipment supplied by the Contractor. All equipment shall remain fully functional throughout the duration of the Contract. Any equipment purchased by the State shall be provided with a three (3) year warranty, resulting in free of charge repair or replacement of any device that becomes faulty. Replacement of such devices may be with a certified like new device. Replacement shall be provided within three (3) State business days of report. It shall be acceptable through the course of the Contract to substitute alternate equipment as manufacturers discontinue products and introduce new equipment. Acceptance of such equipment shall be at the discretion of the State.

As an alternative, the Contractor may propose one (1) year equipment warranty with equipment replacement available for each year of the Contract, resulting in complete equipment coverage for the entire duration of the Contract.

Quality of Equipment

All equipment provided shall be new or of factory refurbished like new quality. The State retains the right to reject any equipment which does not provide a showroom appearance and equivalent operation.

Insurance

The Contractor may propose equipment insurance providing replacement of lost, stolen or damaged telephones. Insurance shall be at the option of the subscriber and not a requirement of the Contractor.

SECURITY

The Contractor shall maintain network security at all times, disallowing network facility access by unauthorized users. When fraudulent use is detected, the Contractor shall contact the State and discontinue service for a designated telephone number if directed by the State.

NATIONAL SERVICE COMPATIBILITY

The service shall be interactive with other Contractors services allowing functionality throughout most areas of the United States.

INTERNATIONAL SERVICE COMPATIBILITY

Contractor may offer international services allowing the use of multi-band telephones (or single band phones) that operate under GSM (Global Special Mobile) or alternate technologies used in Europe or other areas of the world. International Services shall be ordered by the end user on an as needed basis.

911 AND FCC SERVICE COMPATIBILITY

Contractor services and equipment must meet all FCC, State E911 and Federal E911 mandates.

SERVICE FEATURES

The Contractor shall offer service features as defined below. All offered features shall be clearly defined and priced in Exhibit B Balance of Product Line.

Call Forwarding

Forwarding of calls to alternate lines and/or voice mail. Transfer may be invoked either if calls are unanswered after a designated number of rings or if line is busy.

Voice Mail

An answering system allowing calls to forward to an automated message center for call message recording and playback.

Text Messaging

Users shall have the ability to send and receive text messages using telephones.

Caller ID

Display of originating caller telephone number.
