Service and repair must be done by a Millipore trained field service engineer/technician and only Millipore instruments, parts and replacement must be used (no substitutions). The Millipore service engineer/technician shall perform all of the following at each site visit:

- a. Comprehensive electronic and mechanical inspection.
 - b. Sanitation and performance analysis of the RO membrane (if present).
 - c. Water chemistry analysis.
 - d. Expendable replace and service.
 - e. Make minor adjustments and repairs. Record all testing and corrective action.
 - f. Provide to each owner, a printed report for the services rendered at the time of each visit or post visit via email.
-
- a. The Contractor shall provide the following services for the water purification systems:
 - i. Provide free and unlimited telephone technical support.
 - ii. Provide emergency service calls as required for malfunctioning equipment.
 - iii. Respond by telephone within 24 hours of the initial call for service and if the problem cannot be resolved via telephone, an on-site visit will be scheduled within two business days.

Warranty - For all systems that are six (6) years old or newer, the "Service Total" item covers any electrical or mechanical failures. All labor, travel and parts are covered at no additional charge during business hours (Monday through Friday, 8:00 AM – 5:00 PM). After normal business hours there is an additional charge of \$591.00 per hour.

INVOICING:

Each Agency shall be invoiced separately. Invoices shall be submitted in a format acceptable to the State and contain detailed information for which payment is sought (e.g. agency, contract number, unit, extension price, discounts allowed, identification of the service rendered, itemization of the service if applicable).

PRICING: See attached.
