Healthy Lifestyles features and benefits

**BENEFIT:**

Your steps tracker

Keep your body moving.

When it comes to our health, what we think we’re doing and what we’re actually doing don’t always line up. For example, you can have a busy day at work and feel like you ran yourself ragged. But in reality, you may not have physically moved as much as you thought.

If this sounds familiar, you’re not alone. Marsha, a fellow Healthy Lifestyles member, had a similar experience. So she used her steps tracker to find out how much she was really moving each day. Then she used those step counts for motivation to move more.

“My steps tracker shocked me. I was averaging less than 1,000 steps in any shift. So it was easy to see how and why the pounds had a chance to creep up on me. My steps tracker has really gotten this body moving at a high level once again, and I feel great!”

Link your Fitbit to Healthy Lifestyles or set up your exercise or steps tracker like Marsha did and start working toward your fitness goals today.
